1. Claim 1 is objected to because of the following informalities: In claim 1 "by" should be added between "%" and "wt" (each occurrence), and in line 3< "by wt" should be added after "70%". Appropriate correction is required.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-8, 10 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cain et al (5,718,938) in view of Bodnar et al (US 2002/0098275) and Cain et al (5,756,143) as set forth in paragraph no. 6, Paper No. 20071115. Further, the absence of animal fat from applicant's composition is merely a preferred limitation (spec., page 5), and preferred limitations, without more, are not critical (In re Rauch).

4. Applicant's arguments filed February 27, 2008 have been fully considered but they are not persuasive. The intended use of applicant's composition is entitled to no patentable weight in applicant's composition claims. The fact that Cain et al '938 does not contain vegetable pieces and/or monosodium glutamate, as applicant argues, is irrelevant since applicant's claims are not limited to these two components as additives. Applicant's claims can include herbs and/or spices instead, and Bodnar et al clearly suggests these additives. Applicant's contention regarding melting behavior (page 9 of remarks) is not convincing since it is based upon mere conclusion without any supporting factual evidence of record.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
